

BUSINESS QUALITY POLICY STATEMENT

The vision of the senior leadership team of Tyne Pressure Testing Limited (a British Engines Group company) is to create and maintain sustainable success that is driven by excellence in providing pressure testing services.

Tyne Pressure Testing will endeavour to create sustained success in the high integrity service provision market by developing and delivering quality services driven by excellence in project execution and meeting customer expectations while having a clear focus on continual improvement and pursuing the goal of complying with the most stringent requirements relating to quality management.

Tyne Pressure Testing is therefore committed to:

- Achieving its organisational goals by improving quality performance in the most cost effective way in line with the company needs, customers' expectations and all relevant regulatory requirements, so as to ensure the integrity, satisfactory performance and reliability of the services it delivers.
- Continual improvement of the Quality Management System (QMS) by ensuring the risks and opportunities that can affect conformity of the services it provides and the ability to deliver customer requirements are determined and addressed and the focus on enhancing customer satisfaction is maintained.
- Ensuring quality policy and quality objectives are established for the QMS that are compatible with the context and strategic direction of the company and that these are maintained as part of our QMS leadership review processes.
- Establishing partnerships with other suppliers and interested parties to provide an improved service.
- Communicating the importance of effective quality management and of conforming to the QMS requirements.
- Ensuring that personnel at all levels in the organisation fully understand this Policy and ensuring they are committed to its implementation and maintenance, through an ongoing verification, training and education.
- Satisfying all requirements applicable to the Quality Management System.
